Letter of Support

Dear staff and students of Kharkiv National Medical University,

Home Care Berlin is the representation of outpatient palliative care physicians and palliative care workers in Berlin. We are in contact with the Berlin Professor Michael Schenk, who teaches at your university, from whom we received up-to-date background information about the situation in your city.

We want to take this as an opportunity to express our full solidarity to you all. We strongly condemn the war of aggression against Ukraine launched by the President of the Russian Federation Vladimir Vladimirovich Putin on February 24! We are now seeing your city, the second largest in Ukraine, coming under fire, which is terrifying people. The death toll seems to be growing by the hour - we are all witnessing a major war crime.

The employees in the Berlin palliative care think of you, wish you strength and courage, also and especially in these difficult times, and send you all, the employees and students of the university (who have come to Kharkiv from many countries of the world and are now stuck there), solidarity greetings to all their relatives and the citizens of Kharkiv.
